

# CHICAGO WOMEN IN TRADES

## Publications

### Building Equal Opportunity

A study of six affirmative action programs attesting to the need for higher hiring goals for tradeswomen and more aggressive enforcement of compliance with these goals to achieve economic equity in the construction industry for women throughout the United States.

### Breaking New Ground: Worksite 2000

An excellent study that will help contractors, unions, training programs and public agencies prepare for a workforce in which two-thirds of all entrants will be women and minorities.

### Drafting the Blueprint

A planning guide to achieving workforce diversity and equity in construction, provides a step-by-step approach that leads to the development of equitable worksites and an

expansion in the number of women and minorities working on the site.

### Tools for Success

A comprehensive "how-to" manual for tradeswomen with practical suggestions on finding work, dealing with sexual harassment, resolving discrimination, and working with unions.

### In for a Change

The original curriculum for CWIT's Technical Opportunities Program. Includes a training sequence, lesson plans, and a skills and support component.
